

ALERT

September 2005: Hurricanes Katrina and Rita

In Hurricane Katrina's aftermath and in advance and after Hurricane Rita XGL's ALERT emergency response task force provided essential emergency air logistics support to the Gulf Coast community.

Responding to clients' alarms, ALERT executed emergency response air logistics missions...

- **Evacuation** of personnel from company facilities
- **Movement of supplies and stabilization personnel** to the impacted area:
 - Provisions
 - Generators
 - Security teams
 - Assessment teams
- **Reconnaissance missions** to survey and assess damage

ALERT's expeditionary air logistics planning and execution expertise is ready to respond when hazards threaten your business continuity and puts your people, your patients, and your livelihood at risk.
